Projects

Camera Rental System 01/2023 - 04/2023

Developed a dynamic web-based Camera Rental Management System with focus on user convenience and efficient camera booking, The System includes two main module: User Panel allows customers to register, browse available camera, check pricing, mare reservations, and track their bookings. The Admin Panel provides tools for administrators to mange camera listings, handle user bookings, update rental rates, and monitor overall system activity, The platform ensures a smooth rental experience through responsive design and user-friendly navigation.

- **Technologies:** PHP , MySQL , Bootstrap .

Doctor Appointment Booking System 01/2025 - 04/2025.

Designed and developed a comprehensive Doctor's Appointment Booking System featuring dedicated panels for administrators, doctors, and patients. The platform enables users to seamlessly register, browse medical specialists, schedule appointments, and complete payments through an integrated gateway. Administrators can efficiently manage doctor profiles and oversee appointment activity, while doctors access a personalized dashboard to monitor and organize their schedules. The system delivers a streamlined, user-centric experience for managing healthcare appointments.

- **Technologies**: MongoDB, Express.js, React.js, Node.js.

Certification

Programming in java by NPTEL May 2025

Workshops

Attended a workshop on Ideation conducted by Assistant Professor and organized by BVIMIT College.

Attended a workshop on Data Integration with AZURE Data Factory conducted by Associate Team Lead Nagarro India Pvt. Ltd' and organized by BVIMIT College.

Q2)

Q.2) Write an email to apply for Job at your dream company.

Subject – Application for Software Engineer position at Sony Japan headquater

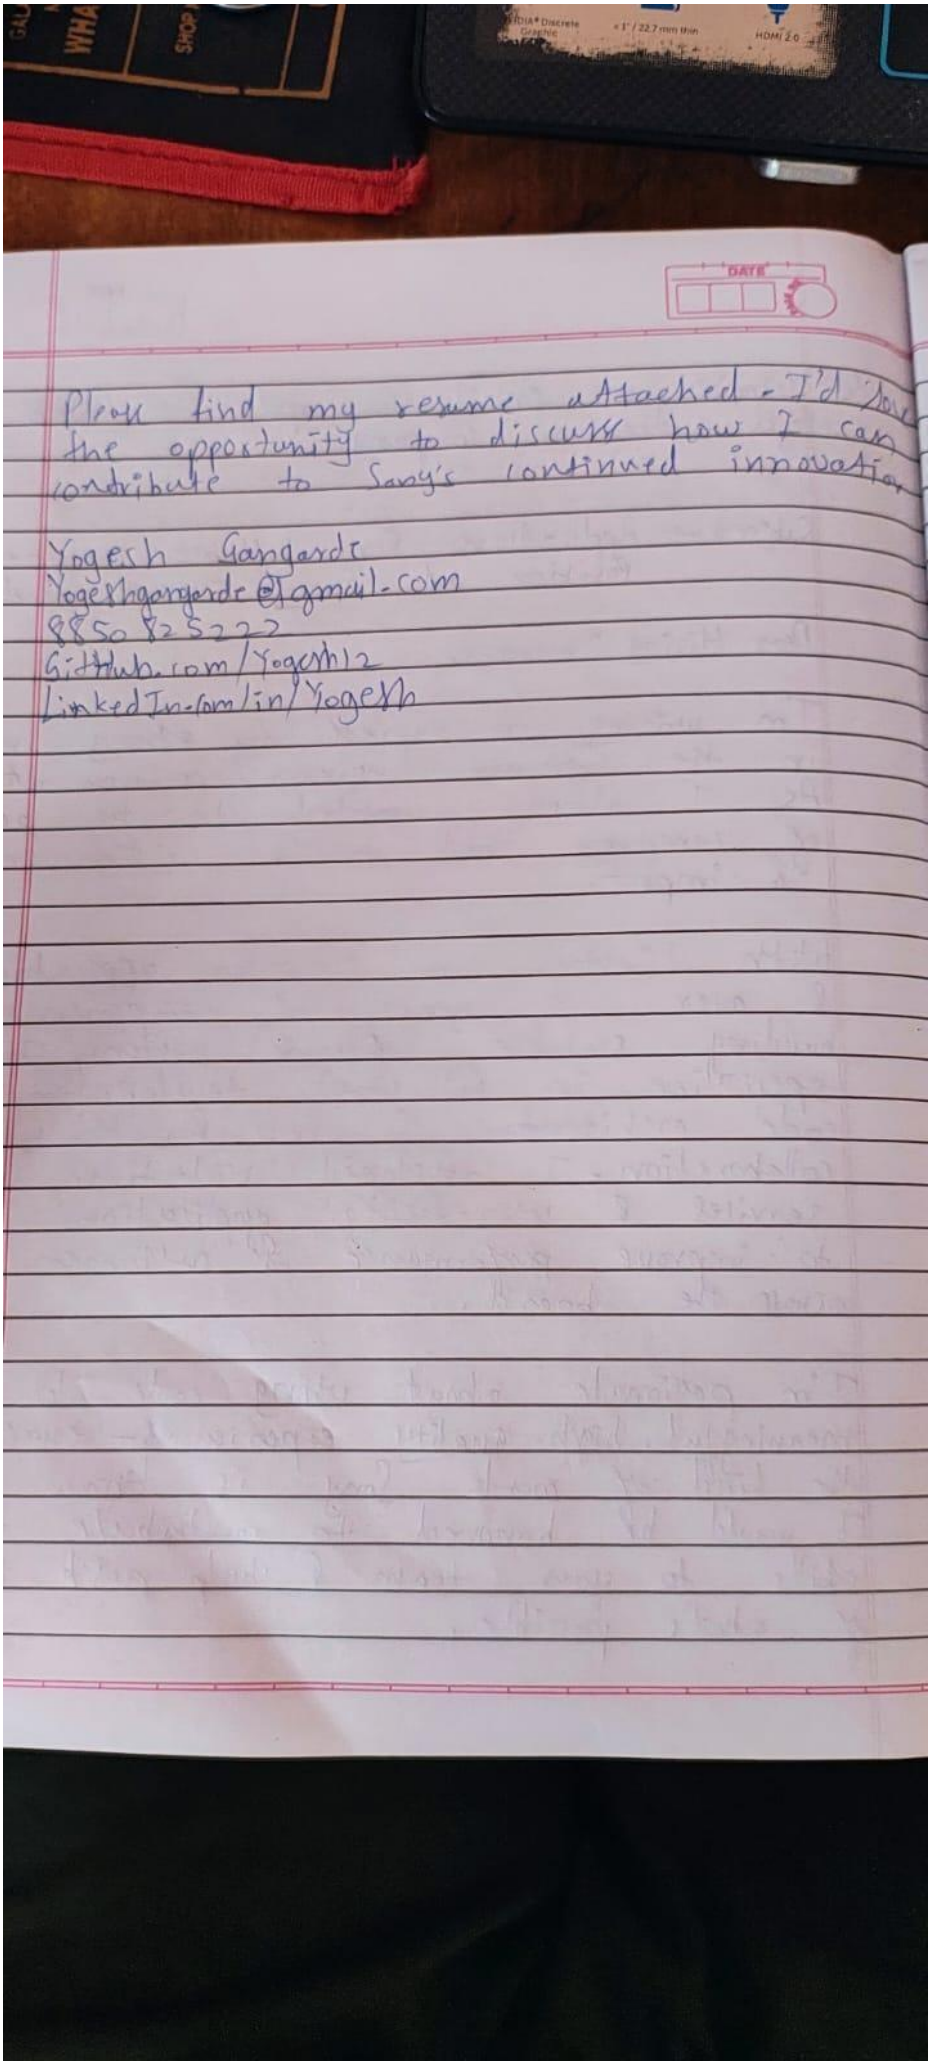

Dear Hiring Manager,

I'm writing to express my strong interest in the Software Engineer position at Sony. As I always wanted to be part of company that leads with creativity & impact.

With Masters in computer application & over 3 years of experience in building scalable software system, I specialize in full-stack development, efficient code architecture & cross-functional collaboration. I developed real-time backend servises & user-facing applications helping to improve performance & customer satisfaction across the board.

I'm passionate about using code to build meaningful, high-quality experiences – exactly the kind of work Sony is known for. I would be honored to contribute my skills to your team & help push boundries of what's possible.

Q.8) Letter to brother/sister on Promotion

Rushikesh Gangarde
A-201 Salal empire,
Hiranandani Rodhal thane (w).
20/4/2025

Dear Rushi,

I know it's been long you heard from me but I know that now you had used to it, I hope you doing well & everyone there would be happy.

Recently I got to know you got promotion from manager to vice-president of a small firm which you made so famous now hardly anyone won't be knowing it. I was sure from day one of your joining there that your passion about work would going to take you to highest roles a company had.

I will try to meet you in person soon as I get the time.

Your Big Brother
Yogesh.
